

# QADIMS LUMIÈRE

Montessori to Matric O & A Level  
School & College

**Dear Parents,**

**Class 6 and Class 7**

Qadims Lumière School, as conveyors of best practice, catalyst of learning and protectors of the academic dynasty of the province.

There are a lot of opportunities available for kids in summer break, and the best choices are those things that help keep their brains and bodies active and ready for the months after break.

Children are more successful in school when parents take an active interest in their studies. It shows them that what they do is important. Of course, helping with homework shouldn't mean spending hours hunched over a desk. Parents can be supportive by encouraging children to complete their task with their little help.

### **REQUEST TO PARENTS:**

Summer vacation time is an opportunity to spend the quality time with your child and make her feel special of her unique identity.

So just spare sometime and do the following:

1. Develop in them the habit of eating healthy food.
2. Inculcate in them good manners, healthy habits and respect others.
3. Help your children to become independent by giving them responsibilities.
4. Involve them in small household activities.
5. Allow them to make their own meal once in a week.
6. Watch some good movies with your ward on kindness, humanity, compassionate, forgiveness etc.
7. Talk about the importance of parents and elders.
8. Accompany your child for morning walk daily.
9. Let them spend time with their grandparents. Their rich experiences will help them overcome challenges with ease.
10. Make sure they minimise the use of gadgets.
11. They should take regular exercise to maintain their health.
